Re: Facilitating the Deployment of Text-to-911 and Other Next Generation  
Applications, PS Docket No. 11-153 and  
Framework for Next Generation 911 Deployment, PS Docket No. 10-255

Dear Ms. Dortch,

On May 22, 2012, while at the Cable Show, Henning Schulzrinne, the Chief Technology Officer of the Federal Communications Commission, witnessed a demonstration of Neustar's messaging gateway managing a conversation between a SMS device and a TTY device. During the course of the demonstration, which was conducted by Tim Cody of Neustar, the point was made that the gateway is capable of evolving with both carriers and PSAPs as their networks and systems develop more advanced messaging capabilities.

Sincerely,

A handwritten signature in dark ink, reading "Richard L. Fruchterman, III". The signature is stylized with a large, circular flourish at the end.

Richard L. Fruchterman, III  
Associate General Counsel

cc: Henning Schulzrinne
